

# Conduct & Policy Acknowledgment

Version 1.1 · October 2026

Read each line, initial it, and sign at the bottom before your coach block. This form goes in your personnel folder.

| AGENT NAME (PRINT) | PROPERTY | TRAINING DATE | TRAINER / LEAD |
|--------------------|----------|---------------|----------------|
|                    |          |               |                |

## I have been coached on and fully understand

| POLICY                   | WHAT I AGREE TO                                                                                                                                                                                           | INITIALS |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| <b>Call-out</b>          | Call AND text my supervisor and the on-call manager at least 2–4 hours before my shift, every day I am out.                                                                                               |          |
| <b>Attendance</b>        | No more than 3 unexcused absences in 90 days. A no call, no show is treated as a resignation.                                                                                                             |          |
| <b>Shift swaps</b>       | A swap is not official until management confirms it in Connecteam. I own the shift until then.                                                                                                            |          |
| <b>Time &amp; breaks</b> | I clock in and out accurately and never work off the clock. 6+ hours includes a 30-minute paid meal break.                                                                                                |          |
| <b>Desk coverage</b>     | The desk is never unattended. If relief is late, I stay (“Holdover”) and notify my supervisor. Leaving my post is a terminable offense.                                                                   |          |
| <b>Devices</b>           | Personal phone silenced and stored on shift; used only on breaks or for emergencies. No earbuds on post.                                                                                                  |          |
| <b>Boundaries</b>        | Friendly, never familiar. No personal or romantic relationships, contact sharing, or financial arrangements with residents.                                                                               |          |
| <b>Confidentiality</b>   | Resident information stays private. No photos, recordings or social media about residents, the property or incidents.                                                                                     |          |
| <b>Respect</b>           | Zero tolerance for harassment. I report what I experience or witness. Retaliation is a terminable offense.                                                                                                |          |
| <b>Shift log</b>         | Every entry uses E.D.O.: 1 per hour, 2 logged tours, all 3 pass-on sections, every shift.                                                                                                                 |          |
| <b>Packages</b>          | I label every package and log it in the system and on the package intake sheet before it goes to storage. Before every release I run a system lookup and confirm the label matches the resident’s record. |          |

|                                    |                                                                                                                                            |  |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|--|
| <b>Incidents &amp; emergencies</b> | I call first, file an incident report before my shift ends, and phone the Regional Manager for anything involving safety, legal or police. |  |
| <b>Uniform</b>                     | I am in full uniform with my name tag, at my post, at my start time.                                                                       |  |

## Signatures

I received this training, had the chance to ask questions, and agree to follow these standards. The Employee Handbook has the full policy for each line above.
